Application of measure of noncompactness to Volterra
equations of convolution type
By EDGARDO ALVAREZ AND CARLOS LIZAMA 441

On some regular fractional Sturm-Liouville problems with
generalized Dirichlet conditions
By FATIMA-ZAHRA BENSIDHOUM AND HACEN DIB 459

Approximation of solutions to a delay equation with a
random forcing term and non local conditions
By RENU CHAUDHARY AND DWIJENDRA N. PANDEY 481

Perturbed Hammerstein integral equations with sign-
changing kernels and applications to nonlocal
boundary value problems and elliptic PDEs
By CHRISTOPHER S. GOODRICH 509

Existence of solutions and controllability for impulsive
fractional order damped systems
By ZHENHAI LIU AND XUEMEI LI 551

Essential norm of a Volterra-type integral operator from
Hardy spaces to some analytic function spaces
By JIZHEN ZHOU AND XIANGLING ZHU 581
