

## Erratum

In the article entitled *Determinant Functors on Exact Categories and Their Extensions to Categories of Bounded Complexes* [Michigan Math. J. 50(2), pp. 407–444] by Finn F. Knudsen, the statement of Axiom SQ 3 (top of p. 409) should have been printed as follows:

SQ 3 If  $\alpha'$ ,  $\alpha$  and  $\alpha''$  constitutes a morphism of short exact sequences and if any two of  $\alpha'$ ,  $\alpha$  and  $\alpha''$  are in  $w$ , then so is the third.

The editors regret the error.
