

Correction to

TOPOLOGY OF SOME KÄHLER MANIFOLDS

K. SRINIVASACHARYULU

Volume 23 (1967), 167-169

Professor Armand BOREL has kindly pointed out to me that I misquote the papers of Frankel and Goldberg-Bishop. The word "holomorphic curvature" in §1 should read as "sectional curvature or holomorphic pinching $> \frac{1}{2}$ " everywhere. The proof of the theorem is valid only with this assumption.

I am indebted to Professor BOREL for having brought this to my attention.
