

Sumari

Articles

H. F. de Lima, E. A. Lima Jr. , Entire spacelike H -graphs in Lorentzian product spaces	273–287
V. Dimant, P. Sevilla-Peris , Summation of coefficients of polynomials on ℓ_p spaces	289–310
N. Q. Dieu, P. V. Manh, P. H. Bang, L. T. Hung , Vitali's theorem without uniform boundedness	311–334
G. David , A monotonicity formula for minimal sets with a sliding boundary condition	335–450
M. Egert, R. Haller-Dintelmann, P. Tolksdorf , The Kato Square Root Problem follows from an extrapolation property of the Laplacian	451–483
W. Zhao, M. Wang, G. Zhao , Integral restriction for bilinear operators	485–500
J. Belk, F. Matucci , Röver's simple group is of type F_∞	501–524
L. C. F. Ferreira, L. S. M. Lima , Global well-posedness and symmetries for dissipative active scalar equations with positive-order couplings	525–550
L. G. Brown , Convergence of functions of self-adjoint operators and applications	551–564
M. Hosseini, F. Sady , Common zeros preserving maps on vector-valued function spaces and Banach modules	565–582
