OBITUARIES

Jack Ceder (August 25, 1933 – January 28, 2012) v

Ireneusz Reclaw (October 31, 1960 – February 4, 2012) xi

RESEARCH ARTICLES

Marianna Csörnyei, Jack Grahl, and Toby C. O’Neil

Points of Middle Density in the Real Line 243

Antonio Boccuto, Xenofon Dimitriou, and Nikolaos Papanastassiou

Limit Theorems in (I) -Groups with Respect to

(D) -Convergence 249

S. Ray and T. K. Garai

On Laplace Continuity 279

Dan Dobrovolschi

Strictly Monotone Functions on Preimages of Open

Sets Leading to Lyapunov Functions 291

Krzysztof Chris Ciesielski and Togo Nishiura

Continuous and Smooth Images of Sets 305

Antonio Boccuto and Anna Rita Sambucini

A Note on Comparison Between Birkhoff and McShane-Type

Integrals for Multifunctions 315

Razvan Anisca, Christopher Chlebovec, and Monica Ilie

The Structure of Arithmetic Sums of Affine Cantor Sets 325

Jonathan M. Fraser and James T. Hyde

The Hausdorff Dimension of Graphs of Prevalent Continuous

Functions 333

Krzysztof Chris Ciesielski and Timothy Glatzer

Functions Continuous on Twice Differentiable Curves,

Discontinuous on Large Sets 353

Jeremiah J. Bass

Mycielski-Regular Measures 363

Yuval Peres and Boris Solomyak

Dimension Spectrum for a Nonconventional Ergodic Average ... 375

Antonio Boccuto, Pratulananda Das, Xenofon Dimitriou, and Nikolaos Papanastassiou	
Ideal Exhaustiveness, Weak Convergence and Weak Compactness in Banach Spaces	389
Tan Soon Boon and Toh Tin Lam	
The Itô-Henstock Stochastic Differential Equations	411

INROADS

Sanjib Basu	
A Few Remarks on Metric Density and Set Porosity That Are Simple and Interesting Consequences of Well Known Results	425
Rodrigo López Pouso	
Mean Value Integral Inequalities	439
Julius V. Benitez, Ferdinand P. Jamil, and Chew Tuan Seng	
Uniform Differentiability	451
Zafer Ercan	
On the Łoś-Marczewski Extension of Finitely Additive Measures	463
Alexander B. Kharazishvili	
A Large Group of Absolutely Nonmeasurable Additive Functions	467
Surinder Pal Singh and Inder K. Rana	
The Hake's Theorem and Variational Measures	477
Zafer Ercan	
A New Proof of the Sobczyk-Hammer Decomposition Theorem	489
C. W. Groetsch	
Error Level Saturation for Popoff's Generalized Derivative Operator	493

ERRATA

Wojciech Wojdowski	
Corrigendum in: A Generalization of Density Topology and on Generalization of the Density Topology on the Real Line	499
