CONTENTS

Orthogonality and the Hewitt-Yosida theorem in spaces of measures	
By RUSSELL G. BILYEU AND PAUL W. LEWIS . . . . .	629
Eventually $p$ -valent functions	
By DOUGLAS MICHAEL CAMPBELL . . . . .	639
Minimal degree rational approximation	
By F.D.K. ROBERTS . . . . .	659
Prime ideal posets in noetherian rings	
By RAYMOND C. HEITMANN . . . . .	667
Factoriality in quotients of linear $G_m$ -actions	
By ANDY R. MAGID . . . . .	675
Some geometric properties of Lorentz sequence spaces	
By P.G. CASAZZA AND BOR-LUH LIN . . . . .	683
On unconditional section boundedness in sequence spaces	
By J.J. SEMBER . . . . .	699
Uniform finite generation of lie groups locally-isomorphic to $SL(2, R)$	
By RICHARD M. KOCH AND FRANKLIN LOWENTHAL . . . . .	707
Pontryagin duality for products and coproducts of abelian $k$ -groups	
By W.F. LAMARTIN . . . . .	725
Two generalizations of the Gronwall inequality by product integration	
By JON C. HELTON . . . . .	733
On $p'$ -automorphisms of abelian $p$ -groups	
By MORTON E. HARRIS . . . . .	751
On ideals having only small prime factors	
By D.G. HAZELWOOD . . . . .	753
On the probability that an integer chosen according to the binomial distribution be $k$ -free	
By J.E. NYMANN AND W.J. LEAHEY . . . . .	769
A connected absolutely flat scheme	
By RAYMOND C. HEITMANN . . . . .	775

Going-between rings and contractions of saturated chains of prime ideals	
By L.J. RATLIFF, JR. ....	777
Representation of linear functionals in a Banach space	
By GARY D. FAULKNER ....	789
Bifurcation of $2m$ th order nonlinear elliptic partial differential equations	
By DAVID WESTREICH ....	793
A criterion of oscillation for generalized differential equations	
By WILLIAM T. REID ....	799
Success probabilities of a conditioned random walk	
By W.D. KAIGH ....	807
Index, Volume 7 ....	817
