

INSTITUTE OF MATHEMATICAL STATISTICS

(Organized September 12, 1935)

The purpose of the Institute is to foster the development and dissemination of the theory and applications of statistics and probability.

OFFICERS AND EDITORS

President:

David R. Brillinger, Department of Statistics, University of California, Berkeley, California 94720-0001

President-Elect:

James O. Berger, Department of Statistics, Purdue University, West Lafayette, Indiana 47907-1399

Past President:

Stephen M. Stigler, Department of Statistics, University of Chicago, 5734 University Avenue, Chicago, Illinois 60637-1546

Executive Secretary:

Hari G. Mukerjee, Department of Mathematics and Statistics, Wichita State University, Wichita, Kansas 67208-0033

Treasurer:

Miriam Gasko Donoho, Department of Marketing and Quantitative Studies, College of Business, San Jose State University, 1 Washington Square, San Jose, California 95192-0069

Program Secretary:

Jon A. Wellner, Department of Statistics GN-22, University of Washington, Seattle, Washington 98195

Editors: *The Annals of Statistics*:

Lawrence D. Brown, Department of Statistics, University of Pennsylvania, Philadelphia, Pennsylvania 19104-6302; John Rice, Department of Statistics, Evans Hall, University of California, Berkeley, California 94720

Editor: *The Annals of Probability*

James W. Pitman, Department of Statistics, University of California, Berkeley, California 94720-0001

Editor: *The Annals of Applied Probability*

Richard L. Tweedie, Department of Statistics, Colorado State University, Fort Collins, Colorado 80523

Executive Editor: *Statistical Science*:

Paul Switzer, Department of Statistics, Sequoia Hall, Stanford University, Stanford, California 94305

Editor: *The IMS Bulletin*

Susan R. Wilson, Centre for Mathematics and Its Applications, School of Mathematical Sciences, Australian National University, Canberra ACT 0200, Australia

Editor: *IMS Lecture Notes—Monograph Series*

David Ruppert, School of Operations Research & Industrial Engineering, E&TC Building, Cornell University, Ithaca, New York 14853-7501

Managing Editor:

John R. Collins, Department of Mathematics and Statistics, University of Calgary, 2500 University Drive NW, Calgary, Alberta, Canada T2N 1N4

Managing Editor:

Paul J. Smith, Director, Statistics Laboratory, Department of Mathematics, University of Maryland, College Park, Maryland 20742

Journals. The scientific journals of the Institute are *The Annals of Applied Probability*, *The Annals of Probability*, *The Annals of Statistics* and *Statistical Science*. The news organ of the Institute is *The Institute of Mathematical Statistics Bulletin*.

Individual and Organizational Memberships. All individual members pay basic membership dues of \$60. Each individual member must elect to receive at least one scientific journal for an additional amount, as follows: *The Annals of Applied Probability* (\$15), *The Annals of Probability* (\$29), *The Annals of Statistics* (\$25), or *Statistical Science* (\$10). Of the total dues paid, \$29 is allocated to *Bulletin* and the remaining amount is allocated equally among the scientific journal(s) received. Reduced membership dues are available to full-time students, permanent residents of countries designated by the IMS Council and retired members. Retired members may elect to receive *The IMS Bulletin* only for \$24. Organizational memberships are available to nonprofit organizations at \$450 per year and to for-profit organizations at \$750 per year. Organizational memberships include two multiple-readership copies of all IMS journals in addition to other benefits specified for each category (details available from the IMS Business Office).

Individual and General Subscriptions. Subscriptions are available on a calendar-year basis. Individual subscriptions are for the personal use of the subscriber and must be in the name of, paid directly by, and mailed to an individual. Individual subscriptions for 1995 are available to *The Annals of Applied Probability* (\$80), *The Annals of Probability* (\$85), *The Annals of Statistics* (\$90), *The IMS Bulletin* (\$50) and *Statistical Science* (\$70). General subscriptions are for libraries, institutions and any multiple-readership use. General subscriptions for 1995 are available to the *The Annals of Applied Probability* (\$90), *The Annals of Probability* (\$130), *The Annals of Statistics* (\$150), *The IMS Bulletin* (\$50) and *Statistical Science* (\$75). Air mail rates for delivery outside North America are \$80 per title (excluding *The IMS Bulletin*).

Permissions policy. Authorization to photocopy items for internal or personal use, or the internal or personal use of specific clients, is granted by the Institute of Mathematical Statistics, provided that the base fee of \$7.50 per copy, plus \$0.00 per page is paid directly to the Copyright Clearance Center, 222 Rosewood Drive, Danvers, Massachusetts 01923. For those organizations that have been granted a photocopy license by CCC, a separate system of payment has been arranged. The fee code for users of the Transactional Reporting Service is 0883-4237/95 \$7.50 + 0.00.

Correspondence. Mail to IMS should be sent to the IMS Business Office (membership, subscriptions, claims, copyright permissions, advertising, back issues), the Editor of the appropriate journal (submissions, editorial content) or the Production Editor, Patrick Kelly, Department of Statistics, 3000 Steinberg-Dietrich Hall, University of Pennsylvania, Philadelphia, Pennsylvania 19104-6302.

Higher Order Asymptotics

by Jayanta K. Ghosh

These lecture notes are concerned with Edgeworth expansions, higher order efficiency, expansion of posterior, probability matching priors and related topics. The lectures were originally presented at the NSF-CBMS Regional Conference held at Chapel Hill, North Carolina, in August 1991.

Contents

Introduction

Edgeworth Expansions, Curved Exponentials, and Fisher Consistent Estimates

Third Order Efficiency for Curved Exponentials

Curvature and Information Loss

Expansion of Posterior, Bayes Estimate and Bayes Risk

Third Order Efficiency, Admissibility, and Minimality

Small Sample Efficiency

Magic Formula, Bartlett Correction, and Matching Probabilities

Noninformative Priors

The New Likelihoods and the Neyman-Scott Problems

Bibliography

Pages viii+110

List price\$25

ASA/IMS Price \$15

**Order prepaid from:
Institute of Mathematical Statistics
3401 Investment Boulevard, Suite 7
Hayward, California 94545-3819 (USA)**
