---

The aim of *Statistical Science* is to present the full range of contemporary statistical thought at a technical level accessible to the broad community of practitioners, teachers, researchers and students of statistics and probability.

The journal will publish discussions of methodological and theoretical topics of current interest and importance, surveys of substantive research areas with promising statistical applications, comprehensive book reviews, discussions of classic articles from the statistical literature and interviews with distinguished statisticians and probabilists.

**SUBMISSION POLICY**

*Statistical Science* welcomes the submission of expository, review, and survey papers in all areas of the theory, methodology and applications of statistics and probability. Articles that synthesize research that has been published in diverse sources or that has been developed from diverse points of view are especially valuable. Please see the editorial in the February 1992 issue (vol. 7, no. 1) for additional description of the goals of *Statistical Science*.

Four nonreturnable copies of any manuscript submitted for consideration are requested for the reviewing process. Copies should be mailed first class to:

Professor Robert E. Kass  
Executive Editor, *Statistical Science*  
Department of Statistics  
Carnegie Mellon University  
Pittsburgh, PA 15213-3890  
statsci@stat.cmu.edu

The manuscripts should be typed on  $8\frac{1}{2} \times 11$ -inch white paper, on one side only, and double-spaced throughout, including the references, with margins of at least  $1\frac{1}{2}$  inches on all four sides. Pages should be numbered consecutively. The manuscript should contain an abstract of 200 or fewer words, followed by approximately 5 or 6 key words or phrases. A short author's note providing the name, address, present position or rank and affiliation of each author should also be included.

A condition of submission is that the manuscript has not previously been published and is not simultaneously being considered for publication elsewhere.

All authors must transfer copyright to the Institute prior to publication.

Page charges are \$45 per printed page. Payment of some or all of the estimated page charges associated with articles is strongly encouraged. The editorial review of articles and administration of page charges are completely separate activities. Manuscripts are reviewed and accepted prior to determining whether page charges will be paid.

Corresponding authors receive 25 gratis offprints. Offprints of discussion articles include the main article(s), discussion(s) and rejoinder(s) as a package. Corresponding authors of main articles receive 25 gratis offprints; corresponding discussants receive 10 gratis offprints. Additional offprints may be purchased by using the IMS Offprint Purchase Order Form accompanying the galley.

Copyright transfer, page charges and offprints are the responsibility of the IMS Business Manager.

In This Issue .....	<i>J. Michael Steele</i>	1
Report on Probability and Algorithms from the Committee on Applied and Theoretical Statistics, Board of Mathematical Sciences, Commission on Physical Sciences, Mathematics and Applications, National Research Council		
Introduction to the Interface of Probability and Algorithms	<i>David Aldous and J. Michael Steele</i>	3
Simulated Annealing .....	<i>Dimitris Bertsimas and John Tsitsiklis</i>	10
Approximate Counting via Markov Chains .....	<i>David Aldous</i>	16
Probabilistic Algorithms for Speedup .....	<i>Joan Feigenbaum and Jeffrey C. Lagarias</i>	20
Probabilistic Algorithms for Defeating Adversaries .....	<i>Joan Feigenbaum</i>	26
Pseudorandom Numbers .....	<i>Jeffrey C. Lagarias</i>	31
Probabilistic Analysis of Packing and Related Partitioning Problems	<i>E. G. Coffman, Jr., D. S. Johnson, G. S. Lueker and P. W. Shor</i>	40
Probability and Problems in Euclidean Combinatorial Optimization .....	<i>J. Michael Steele</i>	48
Probabilistic Analysis in Linear Programming .....	<i>Ron Shamir</i>	57
Randomization in Parallel Algorithms .....	<i>Vijaya Ramachandran</i>	65
Randomly Wired Multistage Networks .....	<i>Bruce M. Maggs</i>	70
Missing Pieces, Derandomization and Concluding Remarks .....	<i>J. Michael Steele</i>	76
Acknowledgment of Referees' Services .....		78
Publications Received .....		79

**Statistical Science** (ISSN 0883-4237), Volume 8, Number 1, February 1993. Published quarterly by the Institute of Mathematical Statistics, 3401 Investment Boulevard #7, Hayward, California 94545. Second-class postage paid at Hayward, California and at additional mailing offices. **POSTMASTER:** Send address changes to *Statistical Science*, Institute of Mathematical Statistics, 3401 Investment Boulevard #7, Hayward, California 94545.
